

You want to be part of a motivated team that revolutionizes the daily work of e-commerce companies? Flexible working hours, regular team events, mobile working and cooperation at eye level are what you expect from your employer? Then you've come to the right place!

THAT'S MINUBO

minubo is not only a dynamic company that has retained its startup culture even after ten years on the market, but also our same-named product: With minubo as an all-in-one business intelligence solution for e-commerce, our customers, for the first time, receive answers to their questions about every business area at the push of a button - and thus make better, data-driven decisions. From well-known brands such as Intersport, CALIDA and ROSE Bikes to rapidly expanding start-ups like 3Bears and SugarShape - e-commerce pros know they can rely on minubo. With that approach, we stand at the forefront of digitalization in retail. Our recipe for success? In-depth analytics and commerce knowledge, big data technology, agile development, excellent customer service and a strong team spirit. Apply now and become part of our team in Hamburg!

SOFTWARE & DATA ENGINEER (ALL GENDERS)

Full-time or Part-time | From 15.07.2024 | Flexible Remote Work

WHY MINUBO?

Imagine vast amounts of data streaming from various sources, unified and transformed into hundreds of complex KPIs, then visualized by a blazing-fast frontend for self-service analytics. In this dynamic environment, you'll have the opportunity to shape and enhance this software alongside a team of exceptionally smart and friendly people.

YOUR RESPONSIBILITY

- You collect and integrate extensive data sets.
- You connect to various data sources, performing data understanding and cleaning tasks.
- You manage the entire data journey from client-specific sources to loading into the data warehouse.
- You utilize Python for data cleaning and preprocessing, and Java for data transformation and loading.
- You interpret and understand client data to derive meaningful insights.
- You assist the customer success team in understanding individual cases.
- You share your knowledge with the team and are a reliable partner in pair programming.
- You help us to continuously improve technical standards, tools and processes.

YOUR PROFILE

- You have several years of experience in software development.
- You are familiar with Python and Java.
- You are interested in big data, OpenSearch, Spark and k8s.
- You enjoy working on concepts together with the team and product managers.
- You like to shape the existing architecture together with the team, rather than keep the status quo forever.
- You are also able to work independently, but enjoy the supportive nature of a good team.
- Strong skills in German and/or English are a must for the communication with your teammates.

YOUR BENEFITS

- **Team Culture:** We stick together, maintain transparent communication and have made regular team events an integral part of our everyday work.
- **Work at Eye Level:** As a grown start-up, we offer flat hierarchies in a dynamic working atmosphere where every idea is welcome.
- **Flexibility in Time and Place:** For a healthy work-life balance, we live flexible working hours and flexible remote work. This allows you to adapt your working day to your individual needs.
- **At the Cutting Edge:** Our innovative product and the constantly evolving industry give our work a high innovative value, bring a wide variety of tasks and always new challenges.
- **Responsibility:** At minubo, everyone is invited to take on responsibility and own projects. We value that every team member contributes to the success of our company.
- **Education & Learning:** We support your education and do our best to make your wishes possible.
- **Public Transport, Sports, Company Pension Scheme & More:** We support your public transport subscription, sponsor your sports (Fitness First, Urban Sports Club, Gymondo) and offer you a company pension scheme. And yes, there are even more benefits waiting for you!
- **Permanent Contracts:** We offer all employees permanent employment contracts.
- **Central Location:** Our office is located in the heart of Hamburg - right between the harbor and the city center, with a variety of lunch options.

We are looking forward to receiving your application including salary request and possible starting date.
